On behalf of National Institute for Laser, Plasma and Radiation Physics (INFLPR), we are honored and happy to welcome you to the 1st Edition of International Conference on Laser, Plasma and Radiation- Science and Technology (ICLPR-ST) at Bucharest, Romania. We hope that the scientific program and the Conference venue at the famous Palace of Parliament will guarantee the success of our event.

The ICLPR-ST conference is dedicated to scientists and industry leaders to debate advances in laser, plasma and radiation technology and advanced forthcoming applications. It covers various topics in lasers and optics, plasma and radiation physics, photonics, laser technologies, ultrafast phenomena, laser and plasma materials processing, new applications in environment, life sciences and energy for a sustainable future.

This program is rich and allows all participants meeting and interacting one another. I hope for a fruitful and long lasting experience with us. With your kind support and participation, we hope to continue this tradition for a long time.
